

Announcement of the proposals that qualify for the 3rd Phase of the 15th Innovation and Technology Competition

The Organizing Committee of the 15th Innovation and Technology Competition announces the ten proposals that qualify for the 3rd Phase of the Competition. Below is the list of the selected proposals. The list includes (sorted in alphabetical order by the last name of the author of the proposal or the person in charge of the team) the following elements:

1. Full name of the author of the proposal or the person in charge of the team in case of team participation.
2. Thematic Area of Proposal
3. Title of Proposal

Full Name	Thematic Area	Title of Proposal
Gerasimos Arvanitis	Advanced Technologies & AI	AviSense.ai: Explainable AI (XAI) technologies to enhance drivers/passengers safety in (semi) autonomous vehicles.
Angeliki Bintoudi	Environment/Climate Change, Environment, Society & Governance (ESG) including Financial Literacy	Optimems: +Mind Industrial is a single Energy Management System (+Mind EMS), that maximizes the use of renewable energy sources, reduces dependence on external providers, and offers participation in energy markets.
Alexandros Christodoulakis	Fintech	Wealthyhood: A wealth-building app helping younger investors learn, save, invest and build wealth privately.
Niki Evelpidou	Environment/Climate Change, Environment, Society & Governance (ESG) including Financial Literacy	Nature4Nature: Revolutionizing Coastal Conservation. A "green" practice to protect beaches against coastal erosion.
Manolis Frantzeskakis	Advanced Technologies & AI	Argo Semiconductors: Smart active antenna for mobile infrastructure.
Pavlos Loizou	Fintech	Ask Wire: Delivers real-time property data and valuations, trusted by governments and financial institutions to drive smarter, data-driven decisions.
Thanos Machairas	Fintech	Woli: A banking solution for kids and teens.
Ioannis Ntinapogias	Fintech	Travelr: Investing in the Future of Travel Platforms.
Konstantinos Plakas	Environment/Climate Change, Environment, Society & Governance (ESG) including Financial Literacy	Agrocymo: Innovative System for Alternative Management of Empty Containers of Plant Protection Products.
Petros Zourdoumis	Digital Business and Ecosystems	ADR4ALL/ODR ecosystem: Digital ecosystem of mobile app and cloud platform for online dispute resolution between consumers and businesses.
