Total Annual Real Charge (TARC)

The TARC includes all cost elements of the credit and provides information in the form of a percentage on the total charge of the loan, on an annual basis.

TARC calculation for a loan of €10,000 repaid in 60 uninterrupted monthly instalments

	TARC	Monthly instalment	Total cost of credit
Green Loan	8.81%	€203.11	€12,281.52
Green Loan EIF	6.67%	€193.66	€11,714.78

The above TARC rate is used merely as an example and applies only if the following assumptions are met:

**Green Loan** Floating interest rate 7.472% (plus levy 0.6% under Law 128/75), broken down as follows: 3M-Euribor (3M-Euribor 13/09/2024: 3,472%) + fixed margin 4.00%, one-off charge of €95, paid upon disbursement and one-off application processing fee of €22 (such amount will be offset against the one-off charge, if the loan is eventually disbursed).

**Green Loan** Floating interest rate 5.472% (plus levy 0.6% under Law 128/75), broken down as follows: 3M-Euribor (3M-Euribor 13/09/2024: 3,472%) + fixed margin 2.00%, one-off charge of €95, paid upon disbursement and one-off application processing fee of €22 (such amount will be offset against the one-off charge, if the loan is eventually disbursed).

Remark:

Repayment is carried out in monthly amortization instalments, unless otherwise stated.
