C. REWARD PROGRAMMES

The NBG Children deposit account, open loan and credit cards are accompanied by various reward and incentive programmes, such as:

1. Programme rewarding consistent deposits into the account by subsidizing, on an annual basis, the interest rate on the account, increasing the net interest that accrues by an amount equal to 20% of the average monthly deposit amount (total annual deposits / 12) subject to a maximum of €200 per annum, on the following conditions, applying cumulatively:
 - (a) every month of each calendar year (from 1 January to 31 December), the account is credited at least once by any amount, provided such amount does not derive from NBG, and
 - (b) no withdrawal is effected during the calendar year, otherwise the subsidy applying to that year does not apply.

In determining the reward amount, and when calculating the average monthly deposit amount, only a maximum monthly credit of up to €1,000 shall be taken into consideration. In addition, if the year is not a full calendar year, but only a fraction of a calendar year (i.e. at 31/12 a full year has not been completed since the deposit account was opened or, on the other hand, a full year has not been completed at the time the account expires) the amount of the reward shall be adjusted in line with the length of time the account was held during the year, expressed as a fraction thus: "Number of months of the account period/12".

The amount of the respective reward shall be calculated and credited on the first business day of the following year.

If on 31 December of the year when the NBG Children account was opened a full year has not been completed, or if the account expires prior to 31 December, the calculations and the maximum subsidy amount shall be adjusted accordingly.

2. Programme rewarding the use of a credit card by refunding an amount equal to 1% of annual transactions relating to purchases only, up to a maximum of €400 per year, provided that at the time of the calculation the card is valid and has been performing throughout the year, i.e. no repayment instalment has remained unpaid for more than one month during the year that the programme applies.

The purchases taken into account to calculate the said reward are those posted on your monthly statements up to 31 December of each year (excluding interest-free instalment payments that are not yet due and have not been posted on the monthly statements by the date of calculation). Purchase refunds shall be deducted from the total amount of the calculation. Transactions effected by additional family cards shall be added to the transactions of the principal card, and the refund is calculated on the basis of the total sum.

The reward programme becomes effective as of the date the card is linked to the NBG Children account and in no case can it have a retroactive effect.

3. NBG may implement promotional programmes, such as contests and prize draws, giving cash awards to the minor beneficiaries of the NBG Children account. The respective amounts are credited to the deposit account whether blocked until termination or freely available, depending on the terms of the programme each time designated by NBG.

Note that:

1. The Bank calculates reward amounts on an annual basis and credits them into the linked NBG Children account, increasing the net interest that accrues, as follows:
 - amounts rewarding consistent deposits into the account, on the first business day of the following year;
 - amounts rewarding credit card use, within the first month of the following calendar year;
 - promotional programmes under c.3 above, whenever each programme is implemented.
2. If on 31 December of the year when the credit card was linked to NBG Children account a full year has not been completed, the calculations and the maximum reward amount are adjusted accordingly.
3. The reward amounts related to deposit consistency, credit card use and some of the promotional programmes under c.3 above, shall remain blocked in the NBG Children deposit account until its expiry, i.e. until the first business day of the month following the month in which the childbeneficiary comes of age, when the amounts shall be automatically released due to the expiry of the account and subsequently of the reward programmes.
4. The reward amounts are quoted in the account statement under reason code 30. Detailed information on the reward amounts can be found at any NBG branch.
5. In the event that the deposit account is closed prior to its expiry, any reward programme shall cease to apply and the Bank is entitled to make a reverse entry and not to pay the total reward amounts gathered to that date.

General Information

1. Interest is posted on 30 June and on 31 December of each year.
2. The balance available each day represents the funds (whether the total balance or a part thereof) whose value date, set as a result of any credit/debit entry or hold, has lapsed on the same day. The value date, in the case of withdrawals, is the date on which the amount withdrawn ceases to be part of the balance and, in the case of deposits, the date on which the funds become available and, in the case of interest-bearing accounts, interest starts accruing.
3. Interest rates are stepped, i.e. the deposit account balance, as it stands from time to time, is divided into portions, and the interest posted on the account balance is calculated for each portion separately on the basis of the above interest rate scale.
Interest is calculated on the balance available on each day and the respective rate applies to the corresponding portion of the balance.
4. Interest is calculated on an actual/360 day basis, i.e. the actual days of the year are the numerator while the commercial year of 360 days is the denominator.
5. Tax is withheld from the interest payable to the account beneficiary in favour of the Greek State. The tax rate depends on the relevant tax law applicable from time to time (currently 15%).
6. You will be informed as soon as possible of any interest rate change in general, through notices displayed to that effect at NBG branches, NBG press releases or the Bank's website [www.nbg.gr]. Rate changes, however, that are favourable to you may apply without notification.
7. Exchange rates are available through the Bank's branches and website (www.nbg.gr) and the daily press. Exchange rate changes may apply immediately without notification.
