

Όλοι μαζί για το παιδί

Feel like Santa

For a 3rd consecutive year, we collected toys and clothes for children of poor families living in Athens Municipalities and the rest of Greece, as well as for kids in care homes.

Under the motto "Feel like Santa", NBG, working alongside SKAI, organized in December a series of events aiming at the collection of toys and clothes for children who really need our care.

The 16 events overall held on 6, 13 and 20 December proved a great success. **2,300 big boxes containing toys and clothes** were collected in all, which were then distributed to children of deprived families in Athens and the rest of Greece, as well as to children in care homes.

The strong turnout at the event venues was touching. A big thanks to all of you for responding to our call, for yet another year, and offering a large number of toys and clothes in a spirit of joy, human compassion and solidarity, thereby bringing light to children's faces.

Once again, the presence and participation of NBG staff in a generous voluntary capacity, as well as of the volunteers of the foundations and Municipalities who took part in the collection and packaging of presents, contributed greatly to the success of the action.

This Christmas we offered children thousands of smiles for the third year in succession, continuing our active involvement in and solidarity with the community in which we operate, and as part of our endeavour to provide support to vulnerable social groups.

We thank you!
